The Board of Trustees adopted these policies on single reading at its meeting on February 25, 2016.

Background
This policy change formalizes existing Higher Learning Commission (HLC) requirements for institutions to seek approval to offer new direct assessment and competency-based education programs. HLC policy currently requires that an institution seek approval for “the addition of academic programs... that represent a significant departure from programs previously included in the institution’s accreditation.” (HLC Policy INST.F.20.040) Under this policy, HLC has historically required approval of new direct assessment programs. On September 1, 2015, HLC implemented new procedures requiring approval of competency-based programs under this policy.

As part of an audit conducted by the U.S. Office of the Inspector General in 2014 regarding HLC’s review of direct assessment and competency-based programs, HLC agreed to particularize its substantive change policy to mention explicitly direct assessment and competency-based programs as requiring approval under the requirements of that policy. This change fulfills that agreement.

HLC Bylaws and policy allow the Board to approve in a single reading changes in HLC policy that are required by federal regulation or other legal mandate.

Implementation
These policies are effective immediately.

Key to Adopted Changes
Policy wording to be deleted or revised is shown as strikethrough (old wording); new policy language, whether through addition or revision, is shown in bold (new wording).
Institutional Change

An institution shall have the obligation to report institutional changes to the Commission as identified in this policy and related policies and to seek and receive Commission approval where appropriate prior to implementing specific changes.

The institution shall use the Commission’s change reporting protocol for this purpose. Changes identified as requiring prior Commission approval prior to implementation shall be included in the institution’s accreditation only after the Commission has reviewed the change through a process identified in this policy and formally acted to approve the change. Changes identified as requiring Commission notification are included in the institution’s accreditation provided that the institution provides timely notification to the Commission through the Institutional Update and other data reporting instruments established by the Commission according to a schedule established by the Commission. However, institutions that have access to the Notification Program for Additional Locations must notify the Commission and receive acknowledgment prior to initiating the Additional Location.
